	Location: Australia
	Client: University of Wollongong
	Main project features: Incidence study of Breast Cancer in Australia.
	Position held: Research Operations Director
	Activities performed: Overall responsibility overseeing project execution and deliverables.

2. Dr. San Tun Aung, Research Advisor

Dr. San Tun Aung, MSR Vice-President and Senior Consultant, has the overall responsibility for the technical management of all research assignments within Myanmar Survey Research. San Tun has had a distinguished career and far reaching professional experience in social research, including direct experience as a senior consultant in programme evaluation studies and as a

Research Director of projects specializing in community development, livelihood, civic education, violence prevention and local governance. He worked for UN Habitat and IFRC as a national officer for post-Nagris development programme.

Dr. San Tun is a sociologist specializing in social changes and development study. He has directed MSR researchers in conducting both quantitative and qualitative studies of evaluation, assessment and nationwide opinion polls. He was recently involved in the implementation of Local Governance Mapping (LGM) project as the research director and worked on comprehensive analysis of finding from different research tools used in LGM phase 1 and 2 and organizing state level workshops in collaboration with UNDP. San Tun has vast experience and expertise in the design, development and implementations of programme evaluation projects, making MSR a desired partner for many respected foreign consultancies that do not have the local knowledge or ability to contextualize a research project within the Myanmar perspective.

Dr. San Tun holds a Masters in International Development from the International University of Japan and a PhD from the University of Hawaii.
